Subject: Meeting Summary: BEAD/FEAD WPS updates and C&T benefits 12/11/2013

1. Summary of OMB call

Not all the interagency reviewers were on the call so we will likely convene again. There were few comments. It sounded as though we might get additional comments in written form, and those would be to us Monday Dec. 16. See my summary sent Monday 12/9 at about 3 pm for additional information.

Since that date, we received a comment from DOL/Wage and Hour Division, asking us to revise the following statement: children in ag may be younger and ~~are permitted to engage in more hazardous tasks~~ than those in non-ag.

2. NPRM Communications strategy – Jeanne will work with Emily on developing the Comm Strat and related communications materials.

3. Tiny update on EFED/C&T benefits – Bob Miller (EFED's incident guy) and his boss, Philip Villanueva, are aware of our request and we hope to hear from them soon regarding a meeting.

Thanks!

Kathy
